OurStory

Forging a Legacy, Building a Nation.

Founded on the principles of resilience and quality, Kamal Tube Mills has been an integral part of Pakistan's industrial growth story. From our humble beginnings, we have forged a path of excellence, evolving into a premier manufacturer of Mild Steel (MS) and Galvanized Iron (GI) pipes, and a comprehensive range of structural steel products.

Our journey began with a single, unwavering vision: to build a company that not only meets but exceeds the expectations of a nation on the rise. We recognized the critical role that high-quality steel plays in construction, infrastructure, and manufacturing. With dedication and a relentless focus on precision, we invested in state-of-the-art machinery and nurtured a team of skilled fabricators and engineers.

Today, our pipes and products form the backbone of projects across Pakistan—from towering architectural marvels and robust industrial frameworks to essential agricultural systems and everyday furniture. Each product that leaves our facility is a testament to our commitment to durability, innovation, and Pakistani craftsmanship.

Kamal Tube Mills is more than just a manufacturer; we are a partner in progress. We are proud to contribute to the framework of our nation, building a stronger, more resilient Pakistan, one pipe at a time.

CEO's Message

Building the Framework of Pakistan's Industrial Growth

Dear Valued Partners,

At Kamal Tube Mills Pvt Ltd, we don't just manufacture steel – we engineer the backbone of progress. For over 60 years, our commitment to excellence has fueled Pakistan's infrastructure, from towering skyscrapers to critical industrial projects.

Our Vision is simple but powerful: To be the most trusted steel solutions provider by combining cutting-edge technology with uncompromising integrity. Every pipe, coil, and beam we produce carries this promise – delivering not just metal, but reliability that stands the test of time.

A handwritten signature in blue ink, appearing to be 'S. Iqbal', written in a cursive style. The signature is positioned on a white rectangular background.

Our Vision

This is our aspiration—the future we are building every day.

To be the foremost catalyst for national development, recognized as Pakistan's most reliable and innovative partner for quality steel solutions.

Our Mission

Our mission is to fuel Pakistan's growth by providing superior steel products and unparalleled service through:

Excellence in Manufacturing: Utilizing state-of-the-art technology and stringent processes to produce MS Pipes, GI Pipes, and structural steel that set the industry standard for quality and durability.

Unmatched Customer Commitment: Building lasting relationships by understanding our clients' unique needs and delivering tailored, reliable solutions on time, every time.

Empowering Our People: Investing in our team—the heart of Kamal Tube Mills—fostering a culture of skill, safety, and pride in craftsmanship.

Sustainable & Ethical Growth: Conducting our business with integrity, responsibility, and a dedication to the socio-economic progress of our community and country.

Our Core Values

These are the non-negotiable principles that every member of the Kamal Tube Mills team lives by:

Quality First

We are relentless in our pursuit of excellence. From raw material to finished product, quality is checked, re-checked, and never compromised. It is the signature of our work.

Customer-Centricity

Our customers are our partners. Their success is our greatest metric. We listen, innovate, and go the extra mile to ensure we are their most trusted supplier.

Integrity & Transparency

We build our reputation on honesty. We conduct all our dealings with fairness, clarity, and respect, ensuring trust in every interaction.

Innovation & Progress

We embrace change and continuously seek better methods, smarter technologies, and more efficient processes to lead the industry forward.

One Team, One Dream

We collaborate, support each other, and share a common goal. The strength of our team is the foundation of our company's strength.

Nation Building

We are proud Pakistanis. Our work is driven by a profound responsibility to contribute to the infrastructure, economy, and resilience of our nation.

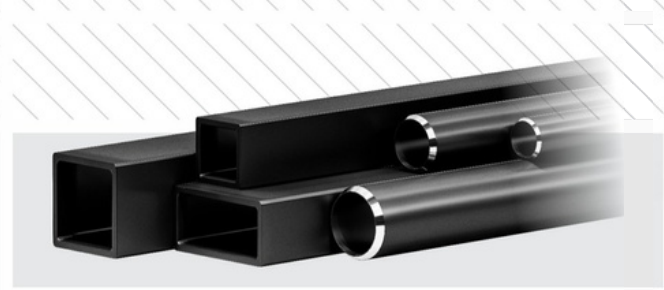

These are our promises—the foundation of every decision we make and every action we take.

Our Product Range

Comprehensive Steel Solutions for a Building Nation

Kamal Tube Mills proudly offers an extensive portfolio of high-quality steel products, manufactured to precise specifications and international standards. We are your single-source solution for all structural and industrial steel requirements, providing the strength and reliability that projects across Pakistan depend on.

Strength and reliability that projects across Pakistan depend on.

MS Pipes (Mild Steel Pipes)

The cornerstone of our offerings. Renowned for their strength and versatility, our ERW (Electric Resistance Welded) MS Pipes are essential for construction, plumbing, and a multitude of industrial applications. Available in various grades, diameters, and thicknesses.

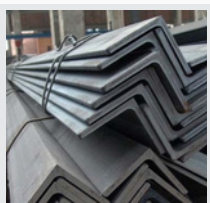

GI Pipes (Galvanized Iron Pipes)

Engineered for superior corrosion resistance. Our GI Pipes are coated with a protective layer of zinc, making them the ideal choice for water supply, fencing, outdoor structures, and applications exposed to the elements.

Structural Steel Sections

The framework of modern infrastructure. Our range includes:

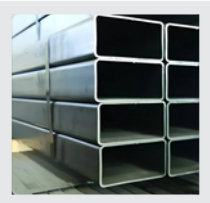

MS Angles & Channels:

For robust support frames, braces, and structural frameworks.

I-Beams & H-Beams:

Providing unmatched load-bearing strength for columns, beams, and bridges in high-rise buildings and large-scale construction.

Square & Rectangular Hollow Sections:

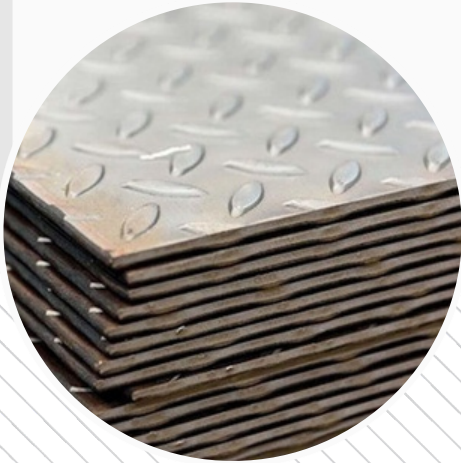

Offering high strength-to-weight ratios for sleek architectural designs, machinery frames, and structural supports.

Our Product Range

Comprehensive Steel Solutions for a Building Nation

Structural Steel Sections

The framework of modern infrastructure. Our range includes:

Chequered Plates:

Featuring a raised lug pattern for excellent anti-slip properties, ideal for industrial flooring, stair treads, and vehicle platforms.

Hot Rolled (HR) Coils, Sheets & Plates

Used as primary material in manufacturing, automotive, and heavy machinery industries.

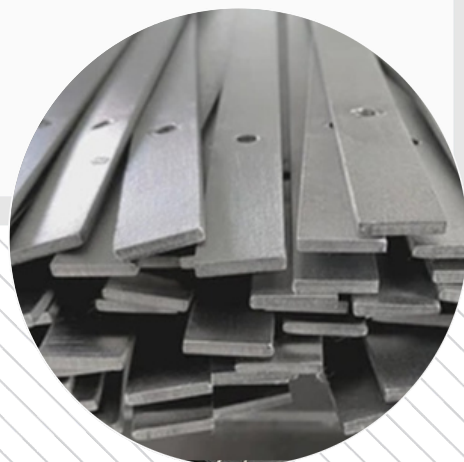

Specialized Profiles & Fabricated Products

Specialized Profiles & Fabricated Products

Guard Rails & Lighting Poles

For highway safety and urban lighting infrastructure.

Flat Bars & Solid Bars:

For a wide range of fabrication, manufacturing, and construction uses.

Our Projects

Building the Landmarks of Pakistan's Progress

The true measure of our quality is seen in the projects we help bring to life. Kamal Tube Mills takes immense pride in supplying the essential steel that forms the backbone of Pakistan's most iconic and vital infrastructure. Our products have been trusted by leading developers and government bodies for their strength, reliability, and compliance with the highest engineering standards.

Lahore Orange Train
Contributing to the city's modern rail infrastructure

BRT Peshawar
Supplying high-grade materials for this flagship shopping and entertainment complex.

Pakistan Kidney & Liver (PKLI)
Supplying critical materials for this state-of-the-art medical facility.

Dolmen Mall, Lahore
Providing structural steel for one of Pakistan's premier retail destinations.

Emporium Mall, Lahore
Supplying high-grade materials for this flagship shopping and entertainment complex.

Packages Mall, Lahore
A key supplier for one of the largest shopping malls in Pakistan.

Our Clients

Partners in Progress, Nationwide

At Kamal Tube Mills, our greatest endorsement comes from the trust of our clients. We are privileged to supply our high-quality steel products to a diverse and growing portfolio of leading construction firms, government bodies, and industrial giants across Pakistan. These partnerships are built on a foundation of consistent quality, reliable delivery, and mutual success.

Manufacturing Excellence

Where Precision Engineering Meets Uncompromising Quality

At the heart of Kamal Tube Mills lies a state-of-the-art manufacturing facility where innovation, technology, and skilled craftsmanship converge. Our commitment to excellence is embedded in every stage of production, ensuring that each product we deliver meets the highest standards of durability, precision, and performance.

Our Advanced Manufacturing Process

1

Cutting-Edge Technology

We leverage modern, automated machinery and High-Frequency Welding (HFW) technology to produce pipes and structural steel with impeccable consistency and strength. Our production lines are equipped with precision controls to maintain exact dimensional accuracy and superior weld integrity.

Rigorous Quality Control

Raw Material Inspection: Verification of chemical and physical properties of steel coils.

In-Process Checks: Continuous monitoring of thickness, diameter, and weld quality during formation.

Final Testing: Hydrostatic tests, flattening tests, visual inspections, and eddy current testing to ensure flawless output.

2

3

Galvanization Excellence

Our GI Pipes undergo a hot-dip galvanization process in a controlled environment, ensuring a uniform, protective zinc coating that offers exceptional corrosion resistance and longevity.
